A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

WASTED: WHY EDUCATION ISNT EDUCATING

Continuum. Paperback. Book Condition: New. Paperback. 256 pages. Dimensions: 8.3in. x 5.2in. x 0.9in. Furedi turns his attention to the education system, skilfully analyzing current processes and providing a way forward. Never has so much attention been devoted to education - and the problems with it. Yet we rarely ask why everyone from the government to parents continually obsess about it. Why are we so constantly worried about it? Why do so many of the solutions proposed actually make matters worse? Tony Blair's education, education, education slogan ensured it remained at the forefront of political agendas. However, the more education is talked about the clearer it becomes that education is not considered as a value in its own right. It is praised for its potential contribution to economic development, as a central instrument for encouraging social inclusion and mobility. Increasingly, the promotion of education has little to do with learning as such. This book is a brilliant piece of analysis. No one from Piaget to David Cameron is safe from Furedi's criticism. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
