CRS REPORT FOR CONGRESS: NUCLEAR ENERGY POLICY: APRIL 15, 2005 - IB88090

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.Nuclear energy policy issues facing Congress include whether to provide federal incentives for a new generation of commercial reactors, radioactive waste management, research and development priorities, power plant safety and regulation, terrorism, and the Price-Anderson Act nuclear liability system. The Bush Administration has stressed the importance of nuclear power in the nation's energy policy. For nuclear energy research and development, the Administration is requesting \$389.9 million for FY2006, about \$14.7 million above the FY2005 appropriation. In addition to that funding, the Department of Energy (DOE) Office of Nuclear Energy, Science, and Technology would receive \$120.9 million for defense-related management and security at the Idaho National Laboratory (INL). The Nuclear Energy office's total FY2006 funding request of \$510.8 million is 5.2 above the comparable FY2005 level, according to DOE. Nuclear provisions are included in energy legislation approved by the House Energy and Commerce Committee April 13, 2005. That language is expected to be packaged with provisions from other House committees and introduced as H.R. 6 for floor action. The Energy and Commerce measure would extend Price-Anderson coverage for new commercial reactors and new DOE nuclear contracts through the end of 2025. The bill would also authorize a hydrogen-producing demonstration reactor .
